

1 - IDENTIFICATION OF THE PREPARATION AND THE COMPANY/BUSINESS**Identification of the substance or preparation**Name of product: **SUPERLEASE BLUE****Use of the substance / preparation**

Article: Release fabrics / Peel plies

Company / undertaking identification

Company name: AIRTECH EUROPE Sarl

Street/POB No.: Z.I. Haneboesch

State/city/postal code: L-4562 DIFFERDANGE

Telephone: +352-582282-1

Telefax: +352-584935

Dept./responsible for information:

E-mail: sales@airtech.lu

Emergency telephone

+352-582282-1 (8.00am – 5.00pm CET)

2 – HAZARDS IDENTIFICATION**Classification:** Article

Under normal conditions of use, there are no known physical or health hazards associated with the product itself.

There is a possibility for certain potential hazards to result from processing of the product. Although we cannot know every conceivable processing condition, we feel you should be aware of this potential in general (see section 11 for additional information).

Harmful and/or toxic vapors may be produced in the event of thermal decomposition.

3 - COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characterization: Woven material made with nylon fibres and coated with a release agent. The fabric is weaved, dyed and coated using a variety of chemical products, some of which themselves may be potentially hazardous. The presence of potentially hazardous chemicals in the finished fabric has been minimized by rinsing and drying of the fabric. The finished textile fabric is not expected to contain any hazardous chemical in a quantity exceeding 1% or any substance of very high concern in a quantity exceeding 0.1%.

Additional information: Article. According to EC directives or the corresponding national regulations there is no labeling obligation for this product.

4 - FIRST AID MEASURES

Skin contact: If irritation occurs from contact with small particles, wash skin with water and soap.

Inhalation: Not a probable route of exposure. In case of accidental inhalation of fumes from overheating or combustion, move to fresh air. Consult a physician after significant exposure.

Eye contact: If irritation occurs from contact with small particles, flush eyes with plenty of water.

Ingestion: Not a probable route of exposure.

5 - FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water fog, carbon dioxide, foam, dry chemical.

Extinguishing media which must not be used for safety reasons: High power water jet.

Special exposure hazards arising from the substance or preparation itself, combustion products: In case of thermal decomposition, carbon monoxide, carbon dioxide and other toxic gases or fumes are evolved.

Special protective equipment: Normal firefighting procedures should be followed to avoid inhalation of smoke and gases. Firefighters should wear full protective clothing including self contained breathing apparatus.

6 - ACCIDENTAL RELEASE MEASURES

Environmental precautions: The product is a fabric material. No spill precautions are necessary.

Cleaning methods: Collect the product and store into containers for disposal.

7 - HANDLING AND STORAGE

Handling: Good industrial practice in housekeeping should be followed. Wash hands after handling and before eating.

Storage: Store in a cool dry place.

8 - EXPOSURE CONTROLS/ PERSONAL PROTECTION

Exposure limit values: If in the processing there is a significant potential for the fiber itself to become airborne, an airborne exposure limit is recommended of 10 mg fiber as particulate/m³ as an 8 hour time weighted average (TWA).

Exposure controls: Overall room ventilation and/or local exhaust at points of fume generation in the work area.

Occupational exposure controls:

Respiratory protection: None under normal usage.

Hand protection: None required.

Eye protection: Not a probable route of exposure. Use safety glasses according to EN 166 as a good general safety practice.

Hygiene measures: Wash hands before handling food and at the end of work.

9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Blue nylon woven fabric
Odor:	None
pH:	Not applicable
Solubility in water:	Insoluble.
Flash point:	Not applicable
Melting point/range:	250-265 °C
Specific gravity:	1.14

10 - STABILITY AND REACTIVITY

Conditions to avoid: Heating above maximum use temperature.

Materials to avoid: Strong oxidizing agents.

Hazardous decomposition products: In case of thermal decomposition, during overheating or combustion, no unusual combustion gases have been observed and the combustion products are similar to those of other organic materials composed of the same elements: carbon monoxide, carbon dioxide and other toxic gases.

Additional information: The product is stable at the handling and storage conditions recommended per § 7 of the safety data sheet and under normal processing conditions.

11 - TOXICOLOGICAL INFORMATION

There are no known physical or health hazards associated with the product itself.

12 - ECOLOGICAL INFORMATION

Ecotoxicity:

Water hazard class: 1 = mild water pollutant

Persistence and degradability:

Product is not biodegradable, nor radioactive.

Additional ecological information:

None.

13 - DISPOSAL CONSIDERATIONS

Disposal recommendations: Disposal of the product and the packaging must be done in compliance with local, state and federal regulations. Where possible, recycling is preferred to landfill or incineration. It contains no significant percentage of materials extractable in water so its effect on ground water in case of landfill should be negligible.

European waste key number: 070217 = Wastes from the manufacture, formulation, supply and use of plastics, synthetic rubber and man-made fibres containing silicones other than those mentioned in 070216.

Contaminated packaging: Waste key number 150101 – Paper and cardboard packaging.

Waste key number 150102 – Plastic packaging.

14 - TRANSPORT INFORMATION

Not classified as hazardous under transport regulations (ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport).

15 - REGULATORY INFORMATION

This product was classified in compliance with the directive known as <All preparations> 88/379/EEC and its adaptations. The product as shipped is not subject to labeling according to EC directives.

16 - OTHER INFORMATION

This bulletin cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation.

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. The information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations but all statements or suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof.
