

## 1. Identification of the substance/ preparation and of the company/ undertaking

### Identification of the substance or preparation

Trade name: A800-3G

### Use of the substance/ preparation

General use Article: Vacuum bag sealant tape

### Company/undertaking identification

Company name: AIRTECH EUROPE SARL

Street/POB-No.: Z.I. Haneboesch

Postal Code, city: 4562 Differdange

Luxemburg

WWW: [www.airtech.lu](http://www.airtech.lu)

E-mail: [sales@airtech.lu](mailto:sales@airtech.lu)

Telephone: +352-582282-1

Telefax: +352-584935

Dept. responsible for information:

Telephone: +352-582282-1, E-mail: [sales@airtech.lu](mailto:sales@airtech.lu)

### Emergency telephone

Airtech, Telephone: +352-582282-1

## 2. Hazards identification

### Classification

#### Classification according to Directive 67/548/EEC or 1999/45/EC

This preparation is classified as not hazardous.

## 3. Composition/ Information on ingredients

Chemical characterization (preparation):

sealant tape of Silicone

Additional information:

Article: According to EC directives or the corresponding national regulations the product does not have to be labelled.

## 4. First-aid measures

After inhalation:

When material is overheated (e.g. during welding), wear breathing protection for a short time or provide for good ventilation, as required.

Always seek medical attention if symptoms develop that are apparently due to inhalation of combustion gases.

After swallowing:

Not a probable route of exposure.

### Most important symptoms and effects, both acute and delayed

No data available

## 5. Firefighting measures

Suitable extinguishing media:

Water fog, foam, dry extinguishing powder, carbon dioxide.

Extinguishing media which must not be used for safety reasons:

High power water jet.

Special exposure hazards arising from the preparation itself, combustion products, resulting gases:

In case of fire may be liberated: Smoke, carbon monoxide and carbon dioxide, silicium dioxide.

Special protective equipment for firefighters:

Wear a self-contained breathing apparatus and chemical protective clothing.

Additional information: Hazchem-Code: -

Use fine water spray to cool endangered containers.

Do not allow fire water to penetrate into surface or ground water.

## 6. Accidental release measures

Environmental measures: Do not allow to enter into ground-water, surface water or drains.

Methods for cleaning up: Take up mechanically, placing in appropriate containers for disposal.

## 7. Handling and storage

### Storage

Requirements for storerooms and containers:

Store in a cool dry place.

storage temperature: 20 - 25 °C.

Do not freeze.

Storage class: 11 Combustible solids

## 8. Exposure controls / Personal protection

### Exposure controls

See information in chapter 7, section storage.

### Occupational exposure controls

Hand protection: Protective gloves when handling hot material according to EN 407.

General protection and hygiene measures:

Wash hands before breaks and after work.

## 9. Physical and chemical properties

### Appearance

Physical state: solid (sealant tape)

Colour: bright green

### Important health, safety and environmental information

Flash point / flash point range: 427 °C (o.c.)

Autoflammability: not self-igniting

Density: 1,11 g/cm<sup>3</sup>

Water solubility: insoluble

## 10. Stability and reactivity

Chemical stability: Product is stable under normal storage conditions.

Conditions to avoid: Do not heat above maximum use temperature.

Materials to avoid: strong oxidizing agents and solvents

Hazardous decomposition products

In case of fire may be liberated: Smoke, carbon monoxide and carbon dioxide, silicium dioxide.

## 11. Toxicological information

### Toxicological Tests:

#### General remarks

There are no known health risks.

## 12. Ecological information

### Ecotoxicity

Water Hazard Class: 1 = slightly hazardous to water

Effects in sewage plants: The insoluble part can be precipitated mechanically in suitable sewage treatment plants.

### Persistence and degradability

Further details: Product is not biodegradable.

### Bioaccumulative potential

No data available

### Results of PBT assessment

No data available

### Additional ecological information

General information: Do not allow to enter into ground-water, surface water or drains.

## 13. Disposal considerations

### Product

Waste key number 07 02 13 = Waste containing silicones other than those mentioned in 07 02 16

Recommendation: Incinerate according to applicable local, state and federal regulations.

### Contaminated packaging

Recommendation: Waste key number 150101 - paper and cardboard packaging

Waste key number 150102 - Plastic packaging

Dispose of waste according to applicable legislation.

Non-contaminated packages may be recycled.

## 14. Transport information

### Sea transport (IMDG)

Proper shipping name: Not restricted

Marine Pollutant: No

### Air transport (IATA)

Proper shipping name: Not restricted

### Further information

No dangerous good in sense of these transport regulations.

## 15. Regulatory information

### Labelling (67/548/EEC or 1999/45/EC)

R phrase(s): not applicable

S phrase(s): not applicable

### National regulations

#### National regulations - Great Britain

Hazchem-Code: -

#### National regulations - Germany

Storage class: 11Combustible solids

Water Hazard Class: 1 = slightly hazardous to water

#### National regulations - EC member states

Volatile organic compounds (VOC):  
0 % by weight

#### National regulations - USA

Hazard rating systems

NFPA Hazard Rating:

Health: 0 (Minimal)

Fire: 1 (Slight)

Reactivity: 0 (Minimal)

HMIS Version III Rating:

Health: 0 (Minimal)

Flammability: 1 (Slight)

Physical Hazard: 0 (Minimal)

Personal Protection: X = Consult your supervisor

HEALTH	0
FLAMMABILITY	1
PHYSICAL HAZARD	0
	X

#### National regulations - China

No data available

## 16. Other information

### Further remarks

Reason of change: Changes in section 2 + 15: GHS

### Group that issues data sheet

Contact person: see chapter 1, department responsible for information.

This data sheet cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined to determine if, and which additional precautions may be necessary. All health and safety information contained in this data sheet should be provided to your employees and customers. It is your responsibility to develop appropriate workplace instructions and training programmes for employees.

As the conditions and methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this product. The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. All statements or suggestions are made without warranty, expressed or implied, regarding accuracy of information, the hazards connected with the use of the product or the results to be obtained from the use thereof.
