

**1 - IDENTIFICATION OF THE PREPARATION AND THE COMPANY/BUSINESS****Identification of the substance or preparation**Name of product: **DAHLTEXX SP2****Use of the substance / preparation**

Article: Bagside and toolside breathing

**Company / undertaking identification**

Company name: AIRTECH EUROPE Sarl

Street/POB No.: Z.I. Haneboesch

State/city/postal code: L-4562 DIFFERDANGE

Telephone: +352-582282-1

Telefax: +352-584935

Dept./responsible for information:

E-mail: sales@airtech.lu

**Emergency telephone**

+352-582282-1 (8.00am – 5.00pm CET)

**2 - HAZARDS IDENTIFICATION****EMERGENCY OVERVIEW:** Under normal conditions of use, there are no known physical or health hazards associated with the product itself.

There is a possibility for certain potential hazards to result from processing of the product. Although we cannot know every conceivable processing condition, we feel you should be aware of this potential in general (see section 11 for additional information).

Harmful and/or toxic vapors may be produced in the event of thermal decomposition.

**3 – COMPOSITION/INFORMATION ON INGREDIENTS****Chemical characterization:** Woven fabric bonded to a polyurethane microporous membrane.**Dangerous ingredients:** None known.**Additional information:** Article. According to EC directives or the corresponding national regulations there is no labeling obligation for this product.**4 - FIRST AID MEASURES****Skin contact:** If irritation occurs, wash skin with water and soap. If hot molten polyurethane contacts skin, flush immediately with water and seek medical attention for thermal burns.**Inhalation:** Not a probable route of exposure. In case of accidental inhalation of fumes from overheating or combustion, move to fresh air. Consult a physician after significant exposure.**Eye contact:** Not a probable route of exposure.**Ingestion:** Not a probable route of exposure.**5 - FIRE-FIGHTING MEASURES****Suitable extinguishing media:** Water, fog and foam.**Exposure hazards:** If heated to elevated temperature (200-250°C) during processing, the product can degrade and generate gasses which may contain small amounts of hazardous chemicals.**Special protective equipment/instructions:** Normal firefighting procedures should be followed to avoid inhalation of smoke and gases. Firefighters should wear full protective clothing including self contained breathing apparatus.

**6 - MEASURES TO BE TAKEN IN THE EVENT OF ACCIDENTAL SPILLAGE**

**Personal precautions:** N/A

**Cleaning methods:** Product might be slippery. It should be properly collected with gloves and stored into containers for disposal.

**Environmental protection:** Not readily biodegradable. It does not contain any significant percentage of materials extractable in water so its effect on ground water in case of landfill should be negligible.

**7 - HANDLING AND STORAGE**

**Handling:** Good industrial practice in housekeeping should be followed. Wash hands after handling and before eating.

**Storage:** Store in a cool dry area.

**8 - EXPOSURE CONTROLS/ PERSONAL PROTECTION**

**Control parameters:** None known.

**Technical measures:** Provide proper ventilation/local exhaust.

**Respiratory protection:** None if proper ventilation is provided.

**Skin protection:** None needed.

**Eye and face protection:** Use safety glasses as a good general safety practice.

**Hygiene measures:** Do not eat, drink or smoke while handling. Thoroughly wash hands with soap and water before meals and at the end of the work shift.

**9 - PHYSICAL AND CHEMICAL PROPERTIES**

Appearance:	Blue fabric bonded to a white membrane
Odor:	None
Boiling point:	Not applicable
Solubility in water:	Not applicable
Flash point:	Not applicable
Melting point/range:	120 - 265 °C
Specific gravity:	Not determined

**10 - STABILITY AND REACTIVITY**

**Stability:** The product is stable at the handling and storage conditions recommended per § 7 of the safety data sheet.

**Conditions to avoid:** Temperatures above 200°C.

**Materials to avoid:** None known.

**Hazardous decomposition products:** There is a possibility for certain potential hazards to result from processing of the product at high temperatures. Thermal decomposition, during overheating or combustion, may produce hazardous gases/vapors. Although we cannot know every conceivable processing end use, you should be aware of this possibility in general.

**11 - TOXICOLOGICAL INFORMATION**

There are no known health hazards associated with the product itself.

**12 - ECOLOGICAL INFORMATION**

No environmental studies on this product. It is not readily biodegradable, nor radioactive.

**13 - DISPOSAL CONSIDERATIONS**

Where possible, recycling is preferred to disposal or incineration. Landfill or incineration must be done in compliance with local regulations.

**14 - TRANSPORT INFORMATION**

Not classified as hazardous under transport regulations (ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport).

**15 - REGULATORY INFORMATION**

This product was classified in compliance with the directive known as <All preparations> 88/379/EEC and its amendments. The product as shipped is not subject to labeling according to EC directives.

**16 - OTHER INFORMATION**

This bulletin cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation.

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. The information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations but all statements or suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof.
