

1 - IDENTIFICATION OF THE PREPARATION AND THE COMPANY/BUSINESS

Identification of the substance or preparation

Name of product: LRB 160

Use of the substance / preparation

Article: Rubber

Company / undertaking identification

Company name: AIRTECH EUROPE Sarl

Street/POB No.: Z.I. Haneboesch

State/city/postal code: L-4562 DIFFERDANGE

Telephone: +352-582282-1

Telefax: +352-584935

Dept./responsible for information:

E-mail: sales@airtech.lu

Emergency telephone

+352-582282-1 (8.00am – 5.00pm CET)

2 - IDENTIFICATION OF HAZARDS

2.1 Classification of the substance or mixture

Article not subject to hazard labelling or classification.

2.2 Label elements

Labelling (CLP)

Safety precautions: not applicable

Labelling (67/548/EEC or 1999/45/EC)

S phrase(s): not applicable

2.3 Other hazards

Skin contact: May cause irritation if allergic to latex rubber.

Inhalation: Vapors are produced at process temperatures.

3 – COMPOSITION/INFORMATION ON INGREDIENTS

Article: Natural Latex rubber sheet containing processing chemicals and pigments – Latex rubber sheeting is generally considered non-hazardous. However latex products may cause an allergic reaction to some people. Persons who know that they are susceptible to make an allergic reaction from latex should avoid the contact with the product.

4 - FIRST AID

Skin contact: Wash with soap and water. Get medical attention if irritation persists.

Inhalation: Due to the form of this product, inhalation is not a route of exposure. If product is heated to decomposition, inhalation of decomposition product can be irritating to the nose, throat and respiratory system. If irritation persists seek medical attention.

5 - FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water, carbon dioxide, dry chemical or foam

Special protective equipment: In the event of fire, wear a self-contained breathing apparatus.

6 - MEASURES TO BE TAKEN IN THE EVENT OF ACCIDENTAL SPILLAGE

Cleaning methods: No special requirements.

Environmental protection: This material as a waste is not considered hazardous waste. However, incineration in an approved waste incinerator is a preferred disposal practice.

7 - HANDLING AND STORAGE

Handling: Do not smoke in the immediate area. Keep away from heat, sparks and flames.

Storage: Store below 26°C and away from heaters. Avoid damp storage conditions. Protect from prolonged exposure to light in particular bright sunlight and strong UV light will degrade light coloured sheets.

8 - EXPOSURE CONTROLS/ PERSONAL PROTECTION

Technical measures: Adequate ventilation should be provided at the point of work.

Respiratory protection: Not required if adequate ventilation is provided.

Skin protection: Rubber gloves are recommended to prevent skin contact.

Eye and face protection: Use safety glasses as a good general safety practice.

Hygiene measures: Wash hands before handling food.

9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Solid flexible cream coloured sheet
Odor:	Slight latex odor
Boiling point:	Not applicable
Vapor pressure (mm/hg):	Not applicable
Flash point temperature (open cup method):	Not applicable
pH:	Not applicable
Solubility in water:	Insoluble

10 - STABILITY AND REACTIVITY

Conditions to avoid: Heating above maximum recommended use temperature.

Materials to avoid: Avoid contact with copper and copper containing alloys which may stain the sheeting. Avoid contact with oils, solvents and greases, which will destroy natural rubber.

Hazardous decomposition products: In case of thermal decomposition, during overheating or combustion, toxic gases or fumes may be evolved: carbon monoxide, carbon dioxide and other toxic combustion by-products.

Additional information: The product is stable at the handling and storage conditions recommended per § 7 of the safety data sheet and under normal processing conditions.

11 - TOXICOLOGICAL INFORMATION

According to the best of our knowledge and to our experience, the product is not harmful to health provided that it is correctly handled and used according to the given recommendations.

12 - ECOLOGICAL INFORMATION

Ecotoxicity: Water hazard class: 1 = mild water pollutant

Persistence and degradability: Product is not biodegradable. The insoluble part can be disposed of mechanically in suitable waste water cleaning plants.

Additional ecological information: Do not allow to enter ground water, sewage or drains.

EU SAFETY DATA SHEET

According to Regulation (EC) No. 1907/2006 (REACH)

LRB 160

13 - DISPOSAL CONSIDERATIONS

Handle as normal industrial solid waste. Disposal must be done in compliance with local regulations.

14 - TRANSPORT INFORMATION

Not classified as hazardous under transport regulations (ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport).

15 - REGULATORY INFORMATION

This preparation was classified in compliance with the directive known as <All preparations> 88/379/EEC and its adaptations.

16 - OTHER INFORMATION

This bulletin cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation.

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. The information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations but all statements or suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof.

Revision: Change of the product name from ARB 160 to LRB 160
